

THINK: I CAN! THINK: YOU CAN!

Volunteering with children is an amazing way to bring more empathy and understanding into their and your lives. Installing the belief that I CAN; YOU CAN make change happen is what this experience is all about! There is no age limit, young or old, as long as you are physically fit and willing to get stuck in and up for a team challenge, we're up for helping make that happen!

FAMILIES HELPING FAMILIES!!

Our family volunteer programmes are designed and led by children and parents involved in Kiya for many years; passionate individuals who want to share Perus secrets and introduce you to the families Kiya supports in

a way that ensures a harmonious blend of understanding and giving between cultures. Each programme is bespoke and designed for you and your families unique needs and skills.

Make a difference

Each family is designated a specific child and family who they will get to know throughout the Kiya Volunteer journey. They will fund raise and do a specific project that benefits that child directly....it could be anything from buying and building a specialist wheelchair to helping clean a backyard or paint a house!
